GitHub: github.com/kuldeeparmar4 | **Portfolio:** kuldeep-personal-portfolio.netlify.app

CAREER OBJECTIVE

Motivated 2nd-year completed B.Tech AI/ML student seeking an internship. Passionate about building scalable, user-centric applications using the MERN stack and GenAI tools. Eager to contribute to real-world development cycles, apply problem-solving skills and gain hands-on industry experience.

EDUCATION

B.Tech in Artificial Intelligence & Machine Learning | VIT Bhopal University | **CGPA:** 8.17/10

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Web Technologies, Development using GenAI.

Certifications: Udemy - Full Stack Web Development With MERN STACK & GenAI 2026

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, VS Code, Cursor, Postman

PROJECTS

Real-Time MERN Chat Application

- Developed a real-time communication platform using Socket.io for bidirectional event-based communication. Implemented JWT-based authentication for secure user login and React Context API
- Engineered a responsive UI that dynamically updates message threads without page reloads.

Income & Expense Tracker (MERN)

- Built a financial management dashboard allowing users to log transactions and visualize spending trends. Designed RESTful APIs to perform CRUD operations on transaction data stored in MongoDB.
- Utilized Chart.js to render dynamic data visualizations, providing users with instant insights into financial health.

Full-Stack Blog Application

- Created a content management system featuring secure CRUD operations for blog posts and user-specific authentication. Implemented Cloudinary integration for image uploads & media handling
- Optimized backend performance using Express.js middleware for error handling and request validation.

KEY ACHIEVEMENTS & CERTIFICATIONS

- **Full-Stack Web Development Course:** Completed comprehensive training in MERN stack architecture, API integration, and deployment pipelines.
- **Problem Solving:** Actively practicing DSA and logical reasoning to improve algorithmic efficiency.
